(over)

MAIL ROOM ☐ TELETYPE UNIT ☐

Result of examination:

The typewriter impressions on the envelopes, Q269 and Q272, are too limited to definitely determine the make and model of the typewriter used to prepare these specimens. However, the typewriter impressions on these envelopes are similar to the IBM Selectric style of type used on Qc2 and other specimens previously submitted in this case. u

The typewriter impressions on the envelope, Q270, are Ransmayer style of type. This same style of type was used in the preparation of Q1, Q156 and other specimens previously submitted in this case. The typewriter impressions on the envelope, Q271, are IBM Selectric script style of type. This same style of type was used in the preparation of Q168 and Q169, previously submitted in this case. u

The cover letters of the packets one through five, Q273 through Q277, are similar to mimeographed typewritten material previously submitted by Boston with airtel dated 5/4/71. u

No record was located in the Laboratory of the copy contained in Q275, dated April 9, 1971, captioned "Citizens' Commission Reveals FBI Files on Informers," as having been previously submitted. The remaining submitted copies are additional copies of the same material previously submitted to the Laboratory. u

Except for the letterhead "resist," on the cover letters, no identifying marks were noted on the submitted evidence which would indicate the immediate source of this material. u

The submitted evidence will be returned separately. Appropriate photographs have been made. u

Re Boston teletype to the Director and Philadelphia
May 6, 1971, 7:20 AM regarding documents mailed from Resist
to [redacted] Record American, Boston, Mass. u

Enclosed herewith are five packets of Xerox copies
of copies of documents taken from the Media RA. These packets
were turned over this date to SA [redacted] by [redacted]
[redacted] of Rich, May and Bilodeau, 1 State Street, Boston,
Mass. This firm represents the Record American-Sunday Advertiser. u

Also enclosed herewith are four envelopes addressed
to [redacted] Boston Globe, Boston, Mass., which were made
available to SA [redacted] by [redacted] on
the afternoon of May 5, 1971. Envelope No. 1 bears the postmark
Philadelphia, Pennsylvania, and date March 9, 1971 PM;
envelope No. 2 bears the postmark Wilmington, Delaware, and
date April 22 PM; envelope No. 3 bears the postmark Philadelphia,
Pennsylvania and date April 9 AM; envelope No. 4 bears the post-
mark Philadelphia, Pennsylvania, and date March 22 PM. u

For the information of the FBI Laboratory, [redacted]
[redacted] was recontacted at the request of SAC MOHR by SA
[redacted] on May 6, 1971, and asked if he was aware which of
the above envelopes contained the original document on which
[redacted] wrote an article in the Boston Globe April 27, 1971.
(Bureau is in receipt of the article and original document has
been previously furnished to the FBI Laboratory for examination.)
[redacted] stated that he assumed that the original document
was mailed in the envelope postmarked April 22 Wilmington,
Delaware. He makes this assumption based on the fact that
[redacted] told him he received the document on April 26 and wrote

184-10000-10000
R

BS 52-6636

an article on it on April 27, 1971. [] will attempt to ascertain from [] if in fact this was the envelope containing the original document. It will be noted that [] has initialed all four envelopes in the top left hand corner. u

b6
b7C

REQUESTS OF FBI LABORATORY

Latent Fingerprint Section

Will process enclosed packets and envelopes for latent prints. It should be noted that [] stated that all four envelopes had been handled by many people at the Boston Globe. [] stated that the packets had been handled by people in his firm in addition to those with the Record-American. It is suggested that any latent prints be compared with those considered prime suspects by Philadelphia in this investigation. u

Document Section

Will examine all the material submitted in an effort to identify any of the subjects in this case. Will carefully scrutinize the cover letter to each packet for the purpose of determining the identity of any of the subjects in this case. Results of examination should be forwarded to Philadelphia and Boston. Neither [] nor [] have requested that these documents be returned to them. Therefore, after examination, they should be returned to the Boston Office to be maintained as evidence in this case. u

[] stated he was not making available the envelope that these packets were mailed in or the cover letter which was addressed to [] until such time as he receives written authority to do so from [] u

SUBJECT: MEDBURG

Enclosed for the FBI Laboratory Document Section for handwriting, hand printing and typewriter analysis (below material obtained from a CS of the Boston Office) in captioned matter as well as ECCSL are the following documents:

- (1) Portion of manila envelope marked "OF, BY, AND FOR THE FBI."
- (2) Portion of sheet of white paper with green felt pen markings apparently "complete set of _____ 4 packets" with red writing on reverse side ending in "[redacted]'s message."
- (3) Stencil entitled "For Immediate Release April 29, 1971."
- (4) Carbon of above stencil.
- (5) Three pages of handwriting on yellow paper beginning "Dear Resist Friends" dated May 1. (Apparently a roughdraft.)
- (6) Memo run off on Resist letterhead, apparently final form of above roughdraft.
- (7) Three Resist letterheads dated "March 19, 1971," beginning with "Dear Friend of Resist."

Re Philadelphia airtel 5/12/71.

A comparison of the Bureau log with the enclosure in referenced Philadelphia airtel regarding documents determined to be irreplaceable by the Philadelphia Office in captioned matter has been made and the following discrepancies noted. 4

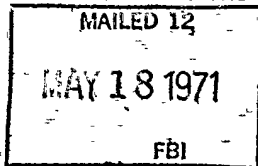

Philadelphia File #29-3138-12, a memorandum from SA [redacted] is currently listed as not received at the Bureau; however, Philadelphia's log indicates a Xerox copy was attached. Philadelphia immediately furnish Bureau with appropriate copies of serial 12. 4

b6
b7C

Philadelphia File #42-20320-1A-1 (photograph of subject) not received at Bureau to date; Philadelphia File #42-20883-1A-1A1 (photograph of subject) not received at Bureau; Philadelphia File #42-18307-32 listed as irreplaceable; however letter Philadelphia to Bureau 3/30/71, reflected serials 30 through 35 of this file were listed as not stolen. Philadelphia clarify. Philadelphia File #67-30217, serials 1 and 2, carried on Bureau log as not being stolen; however, referenced insert lists serial 1 of this file as irreplaceable. Philadelphia note Bureau files fail to reflect FD-140 for applicant. Philadelphia clarify. 4

Airtel to SAC, Philadelphia
RE: MEDBURG

In addition to the above discrepancies, a review of the log being maintained at the Bureau reflects the following documents have not been received at the Bureau, which documents are not listed in the enclosure furnished by Philadelphia: 4

67-30040-2, 3, 4;
67-28556-208;
87-1857-2, 3;
87-19409-29;
88-7506-1A1;
91-6807-47;
91-7621-6, 42;
100-51866-1A1 (photograph of subject);
100-47300-1 (New York Office previously
advised this document destroyed
by New York);
100-48759-135;
105-18592-1A1 (photograph of subject)

157-4865-6;

Philadelphia should immediately review above items and if documents currently listed as missing on Bureau logs are available, should immediately furnish same to the Bureau for inclusion in Bureau files being maintained regarding stolen documents for captioned matter. 4

NOTE:

The Philadelphia Office furnished a list from their logs of the documents missing from the Media RA which they have determined to be irreplaceable. A comparison of the documents listed with the current logs being maintained by the General Investigative Division reflects additional documents have not been received by the Bureau, which documents may be in the files of the Philadelphia Division. Therefore, Philadelphia is being requested to furnish these copies to the Bureau for completion of the Bureau log.

Information has been received from our Philadelphia Office to the effect that representatives of the National Broadcasting Company (NBC) conducted interviews in Media, Pennsylvania, relative to captioned matter. Those individuals interviewed have been informed NBC is preparing a documentary for its television program "First Tuesday" and that the "Media incident" will be featured on this program scheduled to be aired June 1, 1971. On at least two occasions the NBC crew was accompanied by representatives of the Quaker Action Group, an anti-Vietnam organization. u

ALL INFORMATION CONTAINED

HEREIN IS UNCLASSIFIED

DATE 7-17-84 BY SP5 RJG/PMB

One of the individuals interviewed, a restaurant owner in Media, Pennsylvania, was asked questions such as "Did the interviewing Agents treat you roughly?" He advised it was necessary that several takes be made of his interview since he did not answer the questions in the manner desired by NBC representatives. In his opinion the interviewer and crew attempted to "coach" him and he felt that NBC personnel were attempting to "disgrace" the Bureau. u

ST-100 REG-39 52-94527-1634

On May 14, 1971, an individual identifying himself as [redacted] representing NBC contacted the Special Agent in Charge of our Philadelphia Office requesting an interview concerning the Media incident. [redacted] was advised by the Special Agent in Charge that he had no comment to make. u

TO : MR. WALTERS

DATE: 5/14/71

FROM :

[Redacted]

SUBJECT: MEDBURG

By airtel dated May 6, 1971, FBI Boston forwarded for latent fingerprint examination five packets of Xerox copies of copies of documents taken from the Media Resident Agency. These packets were obtained from [Redacted] of Rich, May and Bilodeau, which represents the Record American-Sunday Advertiser. 4

b6
b7c

Although documents handled by many people before coming into our possession, we have identified latent prints appearing on one document as belonging to [Redacted] FBI # [Redacted]. This individual is one of the named suspects in the burglary of the Media Resident Agency. He was arrested in Wilmington, Delaware, in June, 1970, and was charged with attempting to commit a crime on a Government Reservation (breaking and entering). Additionally, he was arrested by Federal authorities in Boston, Massachusetts, in September, 1970 because he failed to appear for a military physical. November 12, 1970, the United States Marshal at Pittsburgh, Pennsylvania, fingerprinted him in connection with a Selective Service violation. 4

This identification would appear to be a major development in the Medburg case. The General Investigative Division has been advised as well as the Boston and Philadelphia Offices. 4

RECOMMENDATION:

ALL INFORMATION CONTAINED

Leads (Continued)

Offices indicated, with the exception of Buffalo, are being furnished one copy of instant report for information. Two copies of instant report are being furnished to the Buffalo Division in view of the extensive investigation being conducted at the Xerox Corporation, Rochester, N. Y. 4

All offices are reminded that appropriate FD-302's or investigative inserts concerning pertinent investigation must be promptly submitted to the Philadelphia Division for inclusion in report. 4

PH 52-7165

Administrative Data

The code word "MEDBURG" has been assigned to this case. u

Since this is a continuing investigation; the investigative period for this report overlaps the investigative period of referenced report. u

As of 5/6/71, 76 separate files have been opened in the 134 classification as a direct result of the MEDBURG investigation. Selection has been based on the individual's occupation, associates, or organizational affiliation. Activities of each will be directed toward development of information leading to a solution of MEDBURG. u

The following FD-302 is not being included in the details of instant report

Referral/Consult

FEDERAL BUREAU OF INVESTIGATION

Date 4/29/71

1

Source examined a composite drawing of a white female who is believed to have visited the Media Resident Agency prior to the burglary of March 8, 1971. Upon close examination of the drawing he stated, "That's a real good likeness of [redacted]" He has observed [redacted] on numerous occasions and advised that the composite drawing differed from [redacted] on the following points: u

b6
b7C

[redacted] wears large round thick framed glasses, unlike those shown in the composite. [redacted] has a more narrow nose than shown in the composite. [redacted] is definitely 5'7" or 5'8" tall. He has never seen [redacted] wear a hat or tam.

The composite drawing appears to resemble [redacted] in the following aspects: u

She has a narrow face, same hairstyle parted in the middle, weighs approximately 120 pounds and is slender, has a small build, has refined facial features, has high cheek bones and a clear complexion, sometimes wears hair in a bun, has observed her wearing a dark knee length overcoat, color unknown, has observed her wearing black boots, and speaks with a clear voice and no accent.

COVER PAGE

On 4/28/71 at Philadelphia, Pa. File # PHILADELPHIA 52-7165 SUB H

SA [redacted]
by SA [redacted] EAS/clp/wjk Date dictated 4/29/71

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

PH 52-7165

Investigation is continuing to identify the Xerox copiers used to reproduce stolen documents and other documents released by the "Citizens' Commission to Investigate the FBI." 4

As of 5/6/71 the FBI Laboratory has examined specimens obtained from 4,508 Xerox Model 660 Copiers. None of these specimens have been associated with the characteristics noted on questioned copies in this case. 4

PH 52-7165

The Laboratory, for investigative assistance, had advised that Kc4494, pieces of mail pertaining to [redacted] Kc4496, copy of miscellaneous papers pertaining to [redacted] both MEDBURG Suspects, and Kc4495, miscellaneous pieces of mail pertaining to [redacted] [redacted] that nothing of particular significance was noted during the comparison of Kc4494 through Kc4496 when compared with the questioned material in instant case or the EASTCON Case which would indicate that this material could have been prepared by the writers of Kc4494 through Kc4496. u

The Laboratory also has advised that from such examination as could be made, nothing particularly significant was noted during the comparison of the comparable hand printing on K4353, a hand printed and handwritten letter prepared by [redacted] with the questioned hand-printing in the MEDBURG or EASTCON Case. u

On April 22, 1971, [redacted] furnished SA [redacted] with a Xerox copy of a release reportedly authored by the Citizens' Commission to Investigate the FBI, which was obtained from [redacted] [redacted]

Laboratory examination of this document designated as Q185 states as follows: u

Specimens received April 26, 1971, from Philadelphia

"Q185 Copy of typewritten document beginning
"On the night of March 8, 1971, the
CITIZEN'S COMMISSION TO INVESTIGATE..."

Result of Examination:

The typewriter impressions on Q185 most closely resemble the Laboratory standards for Royal elite style of type which prints twelve characters per inch. It was further determined that the typewriter impressions on Q185 were not prepared with the typewriters used to prepare the questioned specimens previously submitted in this case. u

No watermarks, indented writing of value, or other marks which would indicate the immediate source of this material were noted on Q185. u

PH 52-7165

Specimen K4351, copy of a three page typewritten letter dated December 6, 1967, bearing the signature of [redacted] was obtained on December 18, 1967, from [redacted] Pennsylvania Selective Service Headquarters; Harrisburg, Pa., in connection with a Selective Service matter involving [redacted]. With respect to this letter, the laboratory advised that many changes can occur in typewriting characteristics in a four year period, due to the repair, damages to the type face, and dirt build-up on the type face. The laboratory report states that for meaningful comparisons to be made, contemporary samples of suspect typewriter should be obtained for comparison with any questioned typewriter impressions submitted in this case. 4

Title:

UNKNOWN SUBJECTS; ALSO KNOWN AS
"THE CITIZENS' COMMISSION TO INVESTIGATE
THE FBI"; BREAK-IN AND BURGLARY OF FBI
RESIDENT AGENCY, MEDIA, PA.,
MARCH 8-9, 1971

Character:

THEFT OF GOVERNMENT PROPERTY;
DESTRUCTION OF GOVERNMENT PROPERTY

DECLASSIFIED ON
BY 6383 12-10-87

Synopsis:

Summary of evidentiary material 3/9/71 to date set out. Chronological list of surfaced documents and news releases originating with UNSUBS set out. Letter from the "Citizens' Commission to Investigate the FBI," postmarked Philadelphia, Pa., 4/19/71, together with copies of FBI documents, mailed to [redacted]

[redacted] Hammermill Paper Company unable to make positive identification of paper used in reproduction of stolen documents. Handprinting, typewriter impressions, and other examinations conducted by FBI Laboratory. Results contained in Evidence section of this report. Additional locksmiths contacted. No information developed concerning attempts to elicit locksmithing information or to obtain assistance from established locksmiths. Neighbors questioned and photos of suspects displayed. No conclusive results obtained. SAs who saw unknown female visitor at Media RA 2/24/71 reviewed photos of look-alikes and physically observed female suspects. Unable to make an identification. [redacted]

[redacted] employee of draft board adjacent to Media RA, furnished description and sketch of woman who attempted to visit RA on or about 2/25, 26/71. After physically observing hair style and glasses, [redacted] feels that except for difference in to visit RA on or about 2/25, 26/71. Physical description of [redacted] set out. 4

PH 52-7165

DETAILS:

I. CRIME SCENE

A. Summary of Evidentiary Material

The following represents a composite picture of the evidentiary material gathered since March 9, 1971, in the investigation of the burglary of the Media Resident Agency (RA) of the FBI.

u

PH 52-7165

Physical Evidence Located at RA

1. Latent Fingerprints

Through dusting of the RA space, eight latent fingerprints and three palm prints of value were obtained. Following examination by the FBI Laboratory, Latent Fingerprint Section, one of the palm prints and all of the latent fingerprints were identified as identical to impressions of FBI Agents assigned to the RA.

Two palm prints have not been identified after comparison with prints of FBI Agents in Media or with prints of suspects developed through investigation of this case.

2. Tool Marks

Two doors leading into the RA space, one numbered 203, the other 204, bore signs of tampering. FBI Laboratory examination determined the lock cylinder to Room 203, the main door, displayed markings like those produced by a wrench, vise-grip pliers, or similar tool. Some of these markings were considered suitable for comparison with any suspect tools which might be recovered. The bottom lock on door 203 bore markings characteristic of those produced by locksmith-type picking tools.

On the hasp and lock casing of the door to Room 204 impressions were noted similar to those produced by a flat-bladed tool, such as a screwdriver. These impressions were characterized by the Laboratory as insufficient for identification. The tumblers in the lock cylinder of door 204 likewise bore characteristics similar to those produced by locksmith-type picking tools.

Inside the RA, two desks bore marks indicating

PH 52-7165

they had been opened by tools, such as a pry bar with a one inch to one and one-half inch wide bit. These markings were insufficient for identification. u

No tool marks of value for comparison purposes were found on the cabinets within the RA space. u

Evidence Developed Through Examination of Documents Surfaced Subsequent to RA Burglary

1. Copying Machines

A. Xerox 660

On March 19, 1971, two packets of reproductions of FBI documents were mailed from Princeton, N. J., to U. S. Senator GEORGE MC GOVERN and to the Washington Bureau of the "Los Angeles Times." On March 21, 1971, U. S. Representative PARREN MITCHELL received a like packet as did the Washington Bureau of the "New York Times." In all 50 copies of FBI documents were included in these packets. Examination by Xerox chemists determined 52 of these documents bore a unique dot indicating production on one machine, a Xerox Model 660 machine. Since the third week of March, no additional reproductions have occurred bearing this characteristic mark. u

FBI Laboratory has advised the dot on these documents is identifiable. However, in excess of 4,00 specimens from Xerox 660 machines have been obtained, and no identification affected to date. The dot appears one-quarter to one-half inch from the bottom of the documents and approximately four and one-half inches from the left-hand border. u

B. Xerox 2400

On March 31, 1971, a number of individuals identified in stolen FBI documents as having furnished information to the FBI received letters from the "Citizens' Commission to

PH 52-7165

Investigate the FBI (CCIF)." Analysis of these letters by Xerox chemists determined they were reproductions off a Xerox Model 2400 machine. Two of the documents bore a unique horizontal line in the upper left-hand corner. Xerox advised this line was the result of a scratch on the drum of the copying machine. U

Specimens have been obtained from Xerox 2400 machines. However, none of the specimens obtained to date have displayed the unique horizontal line. U

C. 3M

Seven reproduced FBI documents mailed to the Chicago Office of the "Los Angeles Times" from Harrisburg, Pa., April 3, 1971, were determined to have been reproduced on a 3M copying machine. Two other documents left at the residence of U. S. Representative PARREN MITCHELL on March 21, 1971, were likewise reproduced on such a machine. Examination by representatives of the 3M Company determined the copies were produced on a manually operated model, but the particular model could not be ascertained. Also the documents did not bear any distinct characteristics which might be matched to subsequent surfaced reproduced documents. U

D. Olivetti - Underwood Copia II, Model 514

Five items have been recovered which were determined to be reproductions from an Olivetti - Underwood (O-U) Copier. Each was a copy of the same document, a March 18, 1971, letter from the CCIF beginning, "Dear Friend, Enclosed you will find..." Examination by O-U officials determined the documents were reproductions of an O-U Copia II, Model 514, machine. However, no characteristics were noted on the copies which would enable identification of the particular machine on which the copies were made. O-U officials have advised this particular model was sold commercially, as well as placed in numerous locations, particularly colleges, as a coin-operated reproduction unit. U

E. . Smith Corona Marchant (SCM)

On April 19, 1971, three individuals in the Philadelphia, Pa., area received letters postmarked Philadelphia, enclosing copies of FBI documents pertaining to them. On April 22, 1971, packets of documents were mailed from Wilmington, Del., to the Washington Offices of the "Washington Post" and the "Los Angeles Times." A total of more than 50 reproduced FBI documents were included in these mailings. They were determined to be copies from an SCM copying machine. SCM officials examining samples of the reproductions determined they were made on a Model 33 or Model 44 machine, but could not be more specific. It was further determined the copies did not bear unique characteristics which would enable identification with specimens from sample machines. u

2. Typewriters

A. IBM Selectric (Elite)

Three envelopes with original impressions of IBM Selectric Elite style of type have been recovered following their mailing to individuals by CCIF. Two of them were postmarked April 3, 1971, at Harrisburg, Pa., the other March 25, 1971, at Philadelphia. In addition, two other documents have surfaced which bear the same style of type, the original CCIF press release dated March 8, 1971, and a letter (received by three individuals) dated April 3, 1971. Identification of this machine through comparison with the original impressions on the three envelopes is possible. u

B. IBM Selectric (Script)

The IBM Script style of type has appeared on two items. One was an envelope postmarked April 22, 1971, at Wilmington, Del., addressed to the Washington Office of the "Los Angeles Times;" the other an enclosed cover letter from

PH 52-7165

CCIF dated April 21, 1971. No other surfaced documents have displayed this type style. u

C. IBM Courier

On April 28, 1971, an unidentified individual distributed ten manila envelopes to various press representatives at the Press Building in Washington, D. C. Enclosed in the envelope was a two page press release allegedly authored by the CCIF. The envelopes bore a sticker of the Peoples Coalition for Peace and Justice, a Washington, D. C., organization. The press release was determined to have been prepared on a typewriter with IBM Courier type style. No other documents have surfaced in this case with this type style. u

D. Remington Elite

Only one document, copies of which were received by four individuals, has surfaced bearing the Remington Elite type style. This document is a March 18, 1971, letter of the CCIF. The FBI Laboratory has advised, although the specimens are reproductions and not original typewriting impressions, the reproductions are of such quality as to allow identification of the machine on which the letter was prepared. u

E. Royal Merit Elite

Nine envelopes addressed to individuals accused of furnishing information to the FBI have been recovered, each of which was prepared on a typewriter with Royal Merit Elite type style. These envelopes, postmarked March 31, 1971, at Philadelphia, enclosed a reproduction of a CCIF letter likewise prepared on a machine with this same type face. In addition, another CCIF letter dated April 3, 1971, and mailed from Harrisburg, Pa., was noted as having Royal Merit Elite characteristics. Identification of the machine on which the envelopes were prepared is possible since they

PH 52-7165

display clear original type impressions. u

F. Ransmayer -- Rodrian (RA-RO) Elite

On March 10, 1971, [redacted] Philadelphia representative of Reuter's News Service, received an envelope in the mail postmarked March 9 at Philadelphia. Enclosed in the envelope was the March 8, 1971, press release of the CCIF claiming responsibility for the Media RA burglary. The FBI Laboratory determined the envelope was prepared on a typewriter with RA-RO Elite type style. This type style, manufactured in West Germany, did not reappear on surfaced documents until April 19, 1971. On that date, three individuals were mailed documents from Philadelphia pertaining to the investigation by the FBI into their activities. The envelopes, as well as the enclosed letter from the CCIF dated April 19, were prepared on a typewriter with the RA-RO Elite type face characteristics. Identification of this machine is likewise possible through comparison with the original type impressions on the four envelopes which have surfaced. u

b6
b7C

3. Staplers

FBI Laboratory examination has been conducted on the staples affixed to surfaced FBI documents recovered between mid-March and mid-April. By comparison of tool marks imparted on the staples, the Laboratory was able to group staples from the documents as having been stapled with the same stapler. In the group of documents examined, it was determined through the tool marks that at least 20 different staplers had been used. Also, four different types of staples have been utilized, flat wire, round wire with flat cut-off ends, round wire with chisel points, and heavy gauge flat wire. u

Identification of the staplers used in preparing some of the surfaced packets is possible through comparison with the tool marks imparted by the stapler on the staple. u

4. Handprinting

On March 19, 1971, two envelopes bearing handprinted

PH 52-7165

addresses were mailed from Princeton, N. J., which contained letters from the CCIF and copies of several FBI documents. These envelopes were addressed as follows: 4

1. Senator GEORGE MC GOVERN
U. S. Senator., S. Dekota
Senate Office Building
Washington, D. C.
2.
Los Angeles Times
Washington Office
Washington, D. C.

b6
b7C

All other envelopes associated with mailings by the CCIF have had typewritten addresses.

5. Latent Fingerprints

FBI Laboratory examination of recovered materials which have been disseminated by CCIF has identified 31 documents on which unidentified latent fingerprints have been developed. These documents were part of packets received by ten different persons, for many of whom elimination fingerprints are not available to compare with the latents. Thus far examination has produced 79 latent fingerprints and three latent palm prints suitable for identification. 4

PH 52-7165

B. Surfaced Documents

Chronological list of surfaced documents and news releases believed originating with Unknown Subjects set out. Letter from the CCIF, postmarked Philadelphia, Pa., April 19, 1971, together with copies of FBI investigative documents, mailed to [REDACTED]

b6

FEDERAL BUREAU OF INVESTIGATION

Date April 23, 1971

[redacted]
[redacted] on April 21, 1971, made available to SA [redacted]
[redacted] a letter which he received through the mail
postmarked Philadelphia, Pa., April 19, 1971, addressed to
[redacted]
[redacted] He explained that [redacted] is his
brother. u

b6
b7C

The letter contained a letter signed by "The
Citizens Commission to Investigate the FBI," enclosing seven
pieces of paper, which apparently were copies of material
taken from the burglary of the FBI Resident Agency Office,
Media, Pa., on March 8-9, 1971. These copies pertained to
investigation concerning his brother, [redacted] u

[redacted] was most cooperative and stated that
he wished to be of any assistance whatsoever to the FBI. He
stated that should he learn of any information or in any manner
be contacted by anyone related to the above matter, he would
immediately notify the FBI. He stated that he had a high regard
for the FBI and that as a citizen of this country, he would
expect the FBI to be conducting investigation of the kind they
had been instituting relative to his brother as a routine manner
in checking persons from foreign countries coming into the
United States. u

-19-

On 4/21/71 at UPPER DARBY, PA. File # PHILADELPHIA 52-7165

C. Examination by Hammermill Paper Company to Identify
Paper Used in Reproduction of Stolen Documents

In an effort to determine the exact type of paper used in reproducing copies of stolen documents in this case, items marked for identification by the Laboratory as Q23, Q24, and Q28, were submitted to Hammermill Paper Company, Erie, Pa., for examination. u

Due to the prior treatment and examination of these specimens by the FBI Laboratory, a positive identification of type of paper used in the reproductions was not made. However, it was the professional opinion of the Hammermill Examiner that the paper was Xerox-4024 type of paper and that this paper would have been manufactured by the Hammermill Paper Company solely for use of the Xerox Corporation. u

Details of the examinations conducted by HAMMERMILL are set out below. u

FEDERAL BUREAU OF INVESTIGATION

1

Date 4/14/71

[redacted] Manager of Printing Paper Development, Hammermill Paper Company, Erie, Pennsylvania, was exhibited items marked for identification as Q23, Q24, and Q28 by the FBI Laboratory. [redacted] stated that he was unable to make any positive identification of the exact type of paper used due to the conditions of these samples through treatment of same by the FBI Laboratory. U

b6
b7C

[redacted] placed the exhibits Q23, Q24, and Q28 on a machine measuring smoothness of samples, but was unable to get any specific reading of smoothness in regards to specifications as to manufacturing products of the photocopy paper similar to "Fore-O-Copy," "Savings-O-Copy," "Xerox-4024," or "Xerox-1524." He stated that he was unable to obtain a smoothness reading due to the printing on the paper and the treatment of this paper by the FBI Laboratory. He did state that the samples had a certain amount of smoothness on the corners, which indicated that the papers did have an original smoothness factor or that this paper was manufactured with a duplicator finish. He stated that the smoothness on the corners of these papers would eliminate an Xerox-1524 type paper because the sample paper was smoother than this Xerox-1524 type of paper. U

He stated that handling and treatment of copy paper can destroy smoothness, but it cannot improve upon it, which would eliminate the Xerox-1524 type of paper. He also stated that the Hammermill Paper Company Savings-O-Copy paper has smoothness, but that this paper is also not as smooth as the samples, which would also eliminate this type of copy paper as being similar to the samples. [redacted] stated that according to the smoothness of the samples, it would appear that the samples were most like Xerox-4024 copy paper or Hammermill Paper Company Fore-O-Copy paper. U

[redacted] also stated that the color of the paper compared with known samples; that he believed that the paper, according to color, was a Xerox-4024 photocopy paper, rather than a Fore-O-Copy. He also noted that all paper going through a duplicator would yellow slightly. U

On 4/12/71 at Erie, Pennsylvania File # Pittsburgh 52-3023

by SA [redacted] /cpo -22- Date dictated 4/12/71

2

[redacted] also subjected Q23, Q24, and Q28 to tests to determine the whitener value in the paper and stated that Xerox paper has a whitener value between 0 and 12, while Hammermill Paper Company photocopy paper has a whitner value between 20 and 30. This test of Q23 reflected a whitener value of 5, Q24 a whitener value of 9, and Q28 a whitner value of 10. U

b6
b7C

[redacted] stated that he believed that treatment of the samples and aging of the photocopy paper would not lower the whitener value as low as that which appeared in the tests. He stated that accordingly he believed that the paper was probably a Xerox-4024 type or Xerox-1524. As noted above, a Xerox-1524 paper was eliminated due to the smoothness factor of the questioned paper. U

[redacted] also stated that it was his professional opinion and not based on any definite facts or tests, but by comparison and elimination factors concerning finish, whitener value, and color, that he believed that the questioned samples would probably be Xerox-4024 type of paper, rather than Xerox-1524 or Hammermill Paper Company Fore-O-Copy or Savings-O-Copy paper. He stated that this paper would have been manufactured by Hammermill Paper Company solely for the use of the Xerox Corporation and for distribution by that company to its customers. He stated that from experience and tests, that he believed that the whitener value was at a level that could have been a maximum of 12 to begin with in the questioned exhibits. He also stated that color was the essential difference between Xerox photocopy paper and the Hammermill Paper Company photocopy paper. U

[redacted] further advised that specifications required by Xerox in the manufacturing of their photocopy work would be the same at all plants manufacturing this paper. He stated that it would be impossible to definitely tell which of the three plants that the paper was actually manufactured in. U

D. FBI Laboratory and Latent Fingerprint Section--
Examination of Evidence

There follows a summary of pertinent FBI Laboratory and Latent Fingerprint Section examinations as set out in detail in this report. u

Examination of handprinting of suspects [redacted]

b6
b7C

[redacted] JOHN PETER GRADY, and [redacted] has been made by the FBI Laboratory. Due to unexplained variations in the handprinting of [redacted] and since the handprinting of [redacted] was not sufficiently comparable with the questioned handprinting and that of GRADY was not sufficiently recent to reflect current handprinting characteristics, it could not be determined whether any of these suspects did or did not prepare the questioned printing in this case. u

The Laboratory also has advised with respect to examination of handwriting of suspects [redacted] and [redacted] that a meaningful comparison cannot be made between handwriting and handprinting. Therefore, it was not possible to determine whether any of these suspects did or did not prepare the questioned handprinting in this case. u

The Laboratory has concluded that the typewriter used to prepare a letter bearing handwriting of suspect [redacted] was not used in preparation of previously submitted specimens in this case. u

Typewriter impressions on a three page typewritten letter dated December 6, 1967, signed by suspect [redacted] were determined to be the same style of type as the typewriter impressions on Q15 (release of "Citizens' Commission to Investigate the FBI" left at the home of Congressman MITCHELL) and additional copies of this letter submitted to the Laboratory in this case. However, some differences were noted. These differences may be due to the four year difference in the time between preparation. u

No indented writing or other marks found on original stolen document sent to the Washington Post which would indicate the immediate source of this material. u

PH 52-7165

1. Examination of Handwriting and Hand Printing of Suspects

Specimens received April 27, 1971, from Pittsburgh

"Kcl494 Copies of miscellaneous pieces of mail pertaining to [redacted]

"Kcl495 Copies of miscellaneous pieces of mail pertaining to [redacted]

"Kcl496 Copies of miscellaneous pieces of mail pertaining to [redacted]

b6
b7C

Result of Examination:

Due to unexplained hand printing variations, it could not be determined whether the questioned hand printing on Q48 and Q49, previously submitted in this case, or the questioned material in the EASTCON case, was or was not prepared by the writers of the hand printing on Kcl494 through Kcl496."

Specimens received April 29, 1971, from Baltimore

"Kl569 Copy of two-page Maryland Department of Motor Vehicles form bearing handwriting of [redacted]

Result of Examination:

Meaningful comparisons cannot be made between handwriting and hand printing. Therefore, it was not possible to determine whether the writer of Kl569 did or did not prepare the questioned hand printing on Q48 and Q49 in the MEDBURG case, or the questioned material in the EASTCON case."

PH 52-7165

Specimens received April 23, 1971, from Baltimore

"K4343 Photocopies of four documents bearing
signatures [redacted] and [redacted]
[redacted]

Result of Examination:

Meaningful comparisons cannot be made between hand printing and handwriting. Therefore, it was not possible to determine whether the questioned hand printing on Q48 and Q49 was or was not prepared by the writer of K4343."

b6
b7C

Specimens received April 23, 1971, from Philadelphia

"K4353 Copy of two-page handwritten and hand printed
letter dated December 1, 1970, prepared
by [redacted]

Result of Examination:

The hand printing on K4353 is not sufficiently comparable with the hand printing on Q48 and Q49 in the MEDBURG case or the unidentified questioned material in the EASTCON case for meaningful comparisons to be made."

Specimens received April 26, 1971, from St. Louis

"K4374 Photocopies of the following documents
bear handwriting and/or hand printing
of JOHN PETER GRADY:

Identification Record form

Letter dated February 8, 1945 (two-page)

Statement of Person Losing Identification
or Liberty Card form dated January 22, 1945

Confidential Form for all Personnel (two-page)

Letter dated February 6, 1942

PH 52-7165

Application form dated November 20, 1943

Page 2 of Selective Service form

Statement form dated November 4, 1943

Notice of Separation from U. S. Naval Service Form

Shipping Articles form dated November 4, 1943

Result of Examination:

The hand printing, Kcl374, is not sufficiently recent to reflect the current hand printing characteristics of the writer. Therefore, it could not be determined whether Q48 and Q49 in the instant case, or the questioned material in the EASTCON case, was or was not prepared by the writer of Kcl374."

Specimens received April 26, 1971 from San Francisco

"K4354 Copy of Piedmont High School Admittance Card and typewritten letter dated January 26, 1965, bearing Handwriting of [redacted] b6 b7C

Result of Examination:

Meaningful comparisons cannot be made between hand printing and handwriting. Therefore, it could not be determined whether the questioned hand printing on Q48 and Q49, previously submitted in this case, was or was not prepared by the writer of K4354.

Specimens received April 30, 1971 from Philadelphia

"K4593 Hand printed note purportedly prepared by [redacted] beginning "I AM LEAFLETTING DOOR TO DOOR..." 4

PH 52-7165

Result of Examination

The hand printing on K4593 is not sufficiently comparable with the questioned hand printing on Q48 and Q49 in the MEDBURG case or the questioned material in the EASTCON case for meaningful comparisons to be made."

2. Typewriting Examinations

Specimens received April 23, 1971, from Philadelphia

"K4351. Copy of three-page typewritten letter dated December 6, 1967, bearing signature of [redacted]"

b6
b7c

Result of Examination:

The typewriter impressions, K4351, are the same style of type as the typewriter impressions on Q15 and additional copies of this letter previously submitted in the MEDBURG case. However, some differences were noted in the typewriter impressions on K4351 when compared with the typewriter impressions on Q15. These differences may be due to the four year difference in time between the preparation of Q15 and the preparation of K4351.

With respect to Item K4351 above, "copy of Eiedmont High School Admittance Card and typewritten letter dated January 26, 1965, bearing handwriting of [redacted]" the laboratory report as to the typewriter impressions on this letter states, "it was determined that the typewriter impressions on K4351 were not prepared with the questioned typewriters used in the preparation of specimens previously submitted in this case."

3. Miscellaneous Examination

The Detroit Office, on April 23, 1971, submitted to the FBI Laboratory a copy of a letter dated April 10, 1971, sent to [redacted] who is currently confined to The Federal Correctional Institution, Milan, Mich. This letter bore a return address of [redacted]

u

PH 52-7165

It will be noted that [] was convicted in Federal Court for breaking and entering FBI Headquarters Resident Agency in Rochester, N. Y.

Laboratory examination of this letter is as follows:

Specimens received April 26, 1971, from Detroit

"K4355 Copy of two-page typewritten and handwritten letter dated April 10, 1971, signed []

Result of examination:

"It was determined that the typewriter impressions on K4355 were not prepared with the questioned typewriters used to prepare the questioned specimens previously submitted in this case."

b6
b7C

4. Examination of Original Surfaced Document

Set forth below is results of laboratory examination of one of the original documents taken in instant theft. This document, described in the following laboratory report, was received by messenger as enclosure to a letter dated April 23, 1971, from [] Managing Editor, The Washington Post, Washington, D. C., addressed to Mr. RICHARD G. KLEINDIENST, Deputy Attorney General, The Justice Department, Washington, D. C.

Specimens received April 24, 1971 from Washington Field Office:

"K4352 Original Memorandum from SAC, Indianapolis (25-21182) to SAC, Philadelphia (25-42035), dated 1/18/71, captioned [] - SSA"

PH 52-7165

ALSO SUBMITTED: Letter and envelope to Mr. RICHARD G.
KLEINDIENST from the Washington Post,

b6
b7C

Result of Examination:

No indented writing or other marks which would
indicate the immediate sources of this material were noted
on K4352.

[redacted]
[redacted] was interviewed at her place of employment, Local Draft Board 60, which is located on the second floor of the County Building, Front and South Streets, Media, Pa. (u)

b6
b7C

She advised orally as follows:

On or about February 25 to 26, 1971, at approximately 11:45 to 12:15 p.m. she was preparing to leave her place of employment and was standing in the middle office which opens into a hallway. The door to the hallway was open, and she could look directly down the hallway and partially observe the doors which led from the hallway to the rooms which, at that time, housed a resident agency of the Federal Bureau of Investigation. u

At that time, she observed a woman knocking on one of the doors leading into the FBI office space. The woman apparently was unable to contact anyone in these office spaces as she walked to where she, [redacted] was putting on her coat and inquired, by question, something to the effect, "Do you know when they will be back?" She, [redacted] advised this woman that it was believed the FBI agents would return at around 1:00 or 1:15 p.m. and inquired whether the woman would like to leave a note with her name and phone number on it in order one of the FBI agents could contact her. The woman advised that she would return later and thereupon left, exiting down the steps from the second floor and out the front door of the building. [redacted] departed at the same time and observed this woman cross South Avenue and proceed south on Front Street. She does not believe she observed this woman again. u

She, [redacted] recalls that this woman made an impression on her due to the obvious agitation on the part of the woman, causing her, [redacted] to believe she was anxious to contact the FBI in order to "turn in a criminal." She characterized this woman as an "agitated, suburban housewife type" u

FEDERAL BUREAU OF INVESTIGATION

Date 4/29/71

[redacted] Administrative Clerk, Local Draft Board 60, County Building, Front and South Streets, Media, Pa., was contacted and requested the agents to furnish her with the photographs she had observed on April 27, 1971. [redacted] immediately separated a photograph of [redacted] appearing on a bicycle and two other photographs of [redacted] from the group. u

b6
b7C

[redacted] advised that the picture of the person on the bicycle was identical to the person whom she saw at the Media Office of the FBI on or about February 25 or 26, 1971. [redacted] agreed to accompany the agents to a position where she could observe in person the individual who may be identical to the person she saw at the resident agency. u

Between 12:30 and 1:30 p.m. [redacted] accompanied the agents in the 2000 block of West Walnut, Philadelphia, during which time she observed approximately 50 Caucasian females walking near the car, PH 224. Approximately 15 of these women of similar physical description of [redacted] were pointed out to [redacted] and she advised none of them were identical to the person she had seen. u

At approximately 1:30 p.m. [redacted] accompanied by one other Caucasian female and three Caucasian males departed the address of 2016 West Walnut walking west on Walnut past the FBI vehicle, PH 224. It is noted that [redacted] was wearing a purple blouse and jeans. [redacted] observed the members of the group and paid particular attention to [redacted] as she passed within five feet of the Bureau car, PH 224. She advised she would like to have a closer look at the girl as they passed the car, PH 224. [redacted] then walked toward the back of a parking lot accompanied by an agent of the FBI where she was able to observe [redacted] sitting in the driver's seat of a red Chevrolet Nova automobile bearing license

This is in reference to a discussion on May 7, 1971, between Deputy Assistant Attorney General [redacted] Internal Security Division, and Special Agent Henry A. Schutz, Jr., of this Bureau relative to [redacted] of the "Boston Globe," Boston, Massachusetts, who had been the recipient of several packets of copies of documents stolen from the FBI Resident Agency at Media, Pennsylvania. *u*

On April 30, 1971, through an attorney for the "Boston Globe," [redacted] had voluntarily returned an original of a document stolen in the above burglary. [redacted] had implied that copies of other stolen documents would not be made available to the FBI; however, [redacted] indicated all documents received by [redacted] in the packet containing the original would constitute evidence and as such should be made available to the FBI. He recommended that [redacted] be recontacted and specifically requested to turn over these documents to the FBI. Should [redacted] refuse to comply with the request, [redacted] advised that consideration would be given by the Department to issue a subpoena to require representatives of the "Boston Globe" produce this material. *u*

EX-103

52-94527-1639
MAY 20 1971

[redacted] was contacted on several subsequent occasions relative to this situation and on May 14, 1971, turned over to representatives of our Boston Office twenty-seven documents which were copies of those stolen from the Media Resident Agency. These copies are being examined by our Laboratory. *u*

SUBJECT: MEDBURG

As previously reported, our Boston, Office has developed information indicating that Resist, Inc., an anti-Vietnam War organization in Cambridge, Massachusetts, which has served as an intermediary in distributing Xerox copies of stolen FBI documents has completed its fifth mailing. Through Boston sources we have been successful in obtaining copies of the documents transmitted in each of the five packets. In addition, Philadelphia has obtained a copy of the Resist Steering Committee meeting of 4/25/71. This document is being reviewed in order to determine its value. u

Resist accompanies each of its mailings with an announcement indicating that Xerox copies of the stolen FBI documents were received by Resist anonymously, implying it has no knowledge as to the individuals responsible for their theft. No information has been developed thus far indicating Resist has actually received originals of stolen FBI documents and there has been no report of Resist mailing an original FBI document to any of the individuals on its mailing list. u

Discussion was had 5/7/71, with Deputy Assistant Attorney General, Internal Security Division, [redacted] with respect to Resist. [redacted] indicated that at this point it would appear little could be gained by issuing a search warrant for Resist's premises except as a harassing tactic since there is no indication original FBI documents would be found on the premises. According to [redacted] since the Boston Office apparently has effective coverage on Resist through live sources and legal trash covers, the execution of a search warrant at this time could hinder FBI investigative activity. Boston and Philadelphia concur in this judgement. u

[redacted] advised that Departmental Attorneys handling Medburg were likewise involved in the Capitol Bombing case (Capbom) and have been tied up in Seattle, Washington, during the past ten days. He indicated, however, an immediate review would be made of the Medburg situation particularly as it pertains to Resist, Inc., in order to determine the feasibility of subpoenaing [redacted] to appear before a Federal Grand Jury in an attempt to [redacted]

Rosen to Sullivan Memorandum
RE: MEDBURG

b6
b7C

Boston has reported that [redacted] attorney for [redacted] of the Boston Globe, Boston, Massachusetts, on 4/30/71 voluntarily appeared at the Boston Office and returned one of the original stolen documents which he advised had been received by [redacted] through the mail. He was unable to furnish any additional information. On 5/5/71, [redacted] made available four envelopes addressed to [redacted] which had been utilized in previous mailings of Xerox copies of stolen documents. Three were postmarked in Philadelphia, Pennsylvania, bearing dates of March 9, March 22, and April 22, 1971. [redacted] indicated the original document was contained in the latter envelope. [redacted] had publicly indicated other documents were contained in the envelope with the original, however, [redacted] did not furnish copies of these other documents to our Boston Office. u

In this regard, [redacted] advised all documents contained in the April 22, 1971, envelope would constitute evidence and accordingly he desired [redacted] be recontacted and specifically requested to voluntarily turn over documents to the FBI. [redacted] indicated should [redacted] refuse to comply with this request the Department will authorize the issuance of a subpoena to require [redacted] produce this material. u

Our Boston Office was instructed to immediately contact [redacted] along the lines set forth above. u

Kc4859 One page typewritten statement reportedly authored by [redacted] which begins, "On December 16, 1970...." and ends "... for their independence." (u)

Result of examination:

Similar word usage and sentence structure were noted between specimen Kc4859 and MEDBURG specimens Qc93 and Qc101, but these similarities are of such a limited nature that no definite conclusion could be reached as to whether or not they were composed by the same individual. No language or linguistic style-of-writing characteristics were found in Kc4859 to indicate similarity or dissimilarity with the language characteristics of MEDBURG specimens Qc93, Qc95, and Qc147, composed by the Citizens' Commission to Investigate the FBI. (u)

It was noted that Kc4859 refers to "S.E. Asia" in two different paragraphs and GARDEBURG ATTEMPT specimen Q50 uses the unabbreviated form "Southeast Asia." (u)

Disposition of specimen Kc4859 and result of document examination handled separately. (u)

FROM: SAC, PHILADELPHIA (52-7165)

SUBJECT: MEDBURG

Re Philadelphia airtels dated 4/28/71, 4/20/71 and
 4/14/71, requesting a composition analysis of documents re-
 ceived from unsubs. u

Enclosed herewith for the Bureau are four copies of
 a typewritten statement reportedly authored by [redacted]
 [redacted] This statement was obtained on 2/11/71 by Philadelphia
 source [redacted] and was believed to have been written sometime
 subsequent to January, 1971. u

A review of the enclosure by Philadelphia disclosed
 a similarity of content to that of the unsubs in their original
 news release following MEDBURG. Composition and statements
 such as "I do not risk this sort of confrontation with the
 Government lightly nor do I enjoy the thought of such personal
 jeopardy," and "...are acutely aware of their responsibility...
 for a just and humane society," are very similar to statements
 appearing in the unsubs' statement. u

BACKGROUND

For the information of the Bureau, [] is a well known peace demonstrator who has participated in several actions in opposition to the war in Vietnam. In one such activity he joined five other persons in chaining themselves to a Local Draft Board in Upper Darby, Pa., for which he was fined \$300, which was later remitted, with the disorderly conduct charge dismissed on appeal. u

b6
b7C

He reportedly is a theology teacher at St. Josephs College, Pa., and was indicted by Federal Grand Jury in December of 1970, for violation of income tax laws. [] is acquainted with several individuals who are considered suspects in MEDBURG and has been active in the Philadelphia War Tax Resistance. In this regard, it is noted that a typewritten statement originating with this group was previously submitted to the FBI Laboratory for type comparison with the original news release of the unsub and the laboratory concluded that the same style of type was used. u

Since original specimens from the Philadelphia War Tax Resistance were not submitted, a positive conclusion could not be reached. u

REQUEST OF THE CRYPTOANALYSIS SECTION AND RESEARCH SECTION:

That the enclosure be analyzed and compared with previous submission. u

Specimens received 5-13-71

K4819 Photographs of test form, application form and
questionnaire form bearing handwriting and hand
printing of
(MEDEBURG)

Result of examination:

It was determined that the writer of K4819 in
the MEDEBURG case did not prepare the questioned hand printing
on specimens submitted in the MEDEBURG and the EASTCON case.
The handwriting and hand printing on K4819 is not sufficiently
comparable with the questioned material on specimens submitted
in the GARDBURG - ATTEMPT case for meaningful comparisons to
be made. *u*

The submitted evidence is retained.

b6
b7c

Enclosed herewith is a Xerox of RESIST press release dated 5/10/71 and "a friendly note to our friends in the press corps." Also enclosed herewith is a Xerox of a manila envelope addressed to RESIST showing a return address of [redacted] Modern Language Association of America, 62 Fifth Ave., New York, New York 10011. (u)

Boston feels that above envelope is possibly the transmittal means by which copies of MEDBURG material were provided to RESIST. It is noted that information developed this date shows that RESIST ordered a Xerox of 50 copies of packet #6 and smaller amounts of copies of packets #1 through 5. It is further noted that the press release states that the MEDBURG material being released by RESIST was received from an anonymous source early this week. The postmark on the envelope from [redacted] to RESIST shows 5/6/71, which was probably received at RESIST on 5/8/71 and Xerox order placed by RESIST on 5/10/71 for their mailing that date. (u)

Leads were set forth for Baltimore and New York in referenced communication. (u)

A FRIENDLY NOTE TO OUR FRIENDS IN THE PRESS CORPS:

With the release of this, the sixth packet of FBI files given to RESIST, we feel compelled to send along a plea to you whom we have tried to help to keep on top of the Media story. We are now sending this material out to over sixty members of the press each time, and the cost of xeroxing and mailing is reaching the point that we may have to cut back our distribution with the next mailing, unless we find some way to cover the costs. If you would like to continue receiving the liberated files that we at RESIST have been getting, please send along whatever you can spare to help us out. We feel that the files are important enough that we shall make continued efforts to spread them out to as many reporters as possible, but we do want to know from those of you who are genuinely interested in receiving further packets, if you can help us in paying for the cost of distributing them. Also, we would appreciate receiving copies or clippings of any stories that might have been run dealing with the files. (4)

ENCLOSURE

FOR IMMEDIATE RELEASE

May 10, 1971

RESIST, a national resistance support group located in Cambridge, Massachusetts, today released a sixth packet of FBI files to selected representatives of the mass media. These documents are xeroxed copies of copies received from an anonymous source early this week. These are more of the files liberated from the Media, Pa. office of the FBI by the Citizens' Commission to Investigate the FBI.

RESIST once again acknowledges receipt of the documents and makes them public because we find that the power of the FBI and other government agencies to collect information and maintain secret files on millions of citizens is a power that proceeds unchecked by action on the part of any of Washington officialdom. RESIST reiterates that until such official restraints are forthcoming, the alternative is for the people of America to maintain checks of their own. To this end, we encourage the formation of new and expanded Citizens' Commissions to Investigate the FBI, so that the work of exposing the manner in which the FBI has betrayed its democratic trust can go forward.

We draw attention to the cover letter from the Citizens' Commission. (E1 in this packet). Contained is a detailed breakdown of the results of careful study of the whole contents of the FBI's Media, Pa. office. The percentages of paperwork are the strongest evidence so far to support the view of those who regard the FBI as the surveillance and evidence-gathering arm of a very repressive right-wing government; a government that concerns itself less with groups who engage in film-making of their torture of America's blacks (E8) than it does with people who legally and peacefully protest the development of anti-personnel weapons systems for use against civilian populations in Indochina (E2-E4)

SUBJECT: MEDBURG

DECLASSIFIED ON 12-10-87
BY 6383 VR77 EAW

Re Philadelphia use of Automatic Data Processing
(ADP) Project as investigative aid in MEDBURG case. ~~(A) (X) u~~

Philadelphia and auxiliary offices have obtained and are continuing to obtain telephone toll call records from individuals, organizations, and communes who are possible suspects or suspect groups in MEDBURG. Manual correlation of these phone numbers indicates that possible patterns exist. The volume of the toll calls involved tends to make the manual correlation of these calls unfeasible. In order to correlate these calls it is suggested that such correlations would best be handled by the use of ADP. ~~(A) (X) u~~

Philadelphia requests that two correlation print-out sheets be made as follows: ~~u~~

- (1) Print-out sheet of toll records sequenced by "to number," to place, date and time of call followed by the headings length of call, billing number, from number, and from place.

- 2-Bureau (52-94527) (RM)

(SIX)

- (2) The second print-out sheet would be a list of all records sequenced by "billing number," date and time followed by additional headings length of call, to number, to place, from number, and from place. *u*

Philadelphia also requests that all data processing entries be made from xerox copies of actual toll records to avoid errors in the input; that all toll records directed to the Bureau for inclusion in ADP be directed to the attention of the Voucher Statistical Section to expedite handling; that all offices submitting toll records for inclusion in this project be directed to submit specified number of copies to the Bureau (Attn: Voucher Statistical Section) and one copy to the office of origin. Bureau advise Philadelphia the number of copies needed for this ADP Project. *u*

Toll call records obtained by Philadelphia to date are estimated to include at least 2,500 individual calls and it is anticipated that continuing investigation will greatly increase this number of calls. Philadelphia requests ADP be used in order that the full potential of toll records as an investigative aid be realized. *u*

Philadelphia will not submit a reference list at this stage of the proposed ADP Project since investigation to date is limited to suspects rather than subjects as was the case in the Philadelphia EASTCON ADP Project (BUfile 100-460495). *u*

PURPOSE: This recommends telephone call records of suspects in captioned case be recorded by Automatic Data Processing (ADP) so an effective printout, depicting telephone contacts between suspects, can be developed as evidence to show association between prime suspects and corroborate information previously furnished by informants

DECLASSIFIED ON
BY 6388 167/12/2

BACKGROUND: On March 8, 1971, the Media, Pennsylvania, Resident Agency (RA) was burglarized and approximately 1,000 FBI documents were stolen. Copies of these stolen documents have subsequently been surfaced by a group that calls itself the Citizens Commission to Investigate the FBI and furnished to certain Congressional figures and various news media. Investigation has centered on several antiwar and antidraft groups that are active in the East Coast area. Philadelphia and auxiliary offices have been instructed to obtain telephone call records on individuals in organizations and communes who are possible suspects in the Medburg case. As of this date, these toll call records number approximately 2,500 individual callers. Manual correlation of some of these phone numbers indicates that a pattern exists between prime suspects, but the increasing volume of toll call records makes continued manual correlation unfeasible. Philadelphia has requested that two correlation print-out sheets be made as follows:

- (1) Print-out sheet of toll records sequenced by "to number," to place, date and time of call followed by the headings length of call, billing number, from number, and from place.
- (2) The second print-out sheet would be a list of all records sequenced by "billing number."

Transmit the following in _____
(Type in plaintext or code)Via A I R T E L _____
(Priority)

TO: DIRECTOR, FBI
 Attention: FBI Laboratory
 Physics and Chemistry Section

FROM: SAC, PHILADELPHIA (52-7165 SUB A)

SUBJECT: MEDBURG

Enclosed for the FBI Laboratory is an envelope containing several staples. u

On 5/13/71, during the course of investigation in the area of Powelton Village, Philadelphia, Pa., SA [redacted] observed a number of posters stapled to trees and telephone poles captioned, "The FBI in Powelton." Similar posters have appeared in the area in the past and are known to have been affixed to trees, etc, by members of the Philadelphia Resistance. Several individuals who are participants in Resistance activities, are suspects in the MEDBURG investigation. u

SA [redacted] removed a number of the posters from trees and telephone poles, as well as the staples holding them. Since the posters themselves had been exposed to heavy rains they are not being forwarded to the Laboratory for examination. u

The FBI Laboratory, Physics and Chemistry Section, is requested to compare the tool marks on the enclosed staples to determine if they might show characteristics similar to staples removed from documents known to have originated with the Citizens Commission to Investigate the FBI.

By memorandum May 3, 1971, full facts were set forth, re false accusations by American Civil Liberties Union (ACLU) Attorney [redacted] relative to alleged harassment by Philadelphia Agents against his client [redacted] former deserter, convicted drug addict, and member of Philadelphia resistance group. [redacted] had complained in writing to SAC, Philadelphia, April 15, 1971, and to the Department April 16, 1971. SAC, Philadelphia, after determining full facts replied to [redacted]'s false charges in writing April 30, 1971, setting the record straight. The Department was apprised of the true facts by letter May 4, 1971. A suggested reply to [redacted] informing there was no basis to his charges and no improper conduct by FBI Agents, was furnished the Department. (u)

This situation stemmed from the fact several attempts had been made over a five day period from April 9 through April 14, 1971, to contact [redacted] in connection with Easton, Medburg, and left wing anti-war groups in Philadelphia area. (u)

Philadelphia now in receipt of another letter, May 4, 1971, from [redacted] in which he accuses Special Agents of making statement to [redacted]'s wife their phone was tapped. [redacted] ordered tap removed at once and that tapes and transcriptions of telephone calls be supplied him. In his letter April 15, 1971, he had charged FBI with unlawful wire tapping. (u)

Copies of [redacted]'s May 4, 1971, letter were sent to the Attorney General, Senators Schweiker (Republican-Pennsylvania), Muskie (Democrat-Maine), and McGovern (Democrat-South Dakota), as well as Representative Hale Boggs (Democrat-Louisiana). (u)

CT-100 REC-42 52-94527-1250

158 MAY 11 1971 SAs [redacted] and [redacted] have previously submitted affidavits denying all allegations by [redacted] Additional affidavits submitted by both denying such statement

Rosen to Sullivan Memorandum
RE: MEDBURG

ever made to []'s wife. As previously reported, [] is a well-known ACLU Attorney who represents a substantial number of anti-war, anti-draft, and new left clients. He is frequently in attendance at rallies and demonstrations related to these activities. This would appear to be another incident of harassing tactics against the FBI with no basis whatever in fact, and under the circumstances, should not be dignified by a reply by the FBI. (u)

b6
b7C

[]'s letter to the Department of April 16, 1971, was to the Attorney General; however, the Attorney General turned the matter over to the Assistant Attorney General, Internal Security Division, for handling and it was the Internal Security Division that originally contacted the Bureau relative to this situation. Our response of May 4, 1971, was directed to the Internal Security Division. (u)

ACTION: In view of the above, there is attached for approval a letter to the Internal Security Division advising of the additional facts and suggesting the Department may desire to consider advising those individuals receiving copies of []'s communication (Schweiker, Muskie, McGovern, and Boggs) as to the true facts. You were previously advised that seven individuals who had furnished information of value to the FBI received typewritten letters dated March 31, 1971, from the Citizens Commission to Investigate the FBI accusing these individuals as informers and advising them to discontinue their cooperation with the FBI. This Commission informed these individuals that one week after the receipt of the letter their names would be made public. *(4)*

The above information was furnished to the Assistant Attorney General, Internal Security Division, to determine whether this action by the Citizens Commission constituted a violation of Federal law. By letter dated April 20, 1971, Mr. Robert C. Mardian, Assistant Attorney General, Internal Security Division, advised it was the opinion of that Division the activity mentioned above constitutes a violation of Title 18, Section 1510, U. S. Code, Obstruction of Justice Statute. *(4)*

The Philadelphia Division furnished an original copy of a newspaper article which appeared in the April 22, 1971, edition of the "Lancaster Independent Press," Lancaster, Pennsylvania, copy of which is attached. This article sets out a list of "informers" who appeared in stolen FBI documents. This paper is operated by [redacted] who have been active in antidraft and new left activities. [redacted] of the "Lancaster Independent Press," is a current security index subject of the Philadelphia Office. *(4)*

While other newspapers have identified FBI sources and informants, the article in the "Lancaster Independent Press" is the only known instance wherein the article specifically spelled out the purpose of the Citizens Commission to prohibit

the sources and informants from further cooperation with the FBI. In this instance, the "Lancaster Independent Press" is serving as an arm of the Citizens Commission to intimidate through public disclosure, our informants and sources, and thereby attempt to prevent or deter them from further cooperation with the FBI. (u)

ACTION:

Attached for approval is a letter to the Assistant Attorney General, Internal Security Division, to determine if the publication of FBI informants and sources as set forth in this situation is a violation of Title 18, Section 1510, U. S. Code. (u)

Ex-Dean of Student Affairs at Lincoln University Named as FBI Informer

NEW YORK (LNS) — While the FBI plans to close some of its offices and J. Edgar Hoover fumes, the Citizens Commission to Investigate the FBI continues to send out copies of the 1,000 files they stole from the Media, Pa. FBI office several weeks ago. One recent packet sent out contained documents with the names of FBI informants.

On March 30 the Citizen's Commission sent a letter to the informants. It told them that their names were going to be made public in about a week and suggested that they talk with the people whom they had been giving information about. The letter stated, "We regret that this action was necessary but these are troubled times, and the struggle for freedom and justice in this society can never succeed if people continue to betray their brothers and sisters."

The following is a list of informers taken from the FBI documents: Marjorie Webb, secretary to the registrar; Judy G. Feiy, chief switchboard operator; Mr. Henry Peirsol, security officer — all from Swarthmore College, Swarthmore, Pa.; Mr. Charles Grier, postmaster, U.S. Post Office, Swarthmore, Pa.; Robert Bunker, assistant chief, Rutgers Campus Patrol, Rutgers College; Donald K. Check, dean of student affairs, Lincoln University, Oxford, Pa. (who left the college two years ago — LIP); Mr. Daniel McGronigle, cashier, Southeast National Bank, 4th and Market St., Chester, Pa.; Mr. Allan Ferguson,

executive officer, Computer Center, Southeast National Bank, 24th and Edgmont Ave., Chester, Pa.; Mrs. Hazel Gallagher, assistant manager, Chester Credit Bureau, Inc., Chester, Pa.; Brother Patrick, Villanova Monastery, Villanova, Pa.; and a woman informant who lives at 3114 W. Euclid, Philadelphia, Pa.

FBI efforts to track down their stolen papers and the people who took them seem to be proceeding slowly. The Xerox Corporation announced that it had turned down an FBI request for sample sheets from every machine they rent out of the model on which the documents have been duplicated. Xerox did supply the FBI with a list of all the institutions which rent the machine.

So if you know any Xerox machines, you can expect a visit — maybe from a credit agency, or a cashier, or a monk?

Mr. Rosen's memorandum to Mr. Sullivan 4/20/71 recommended Cryptanalysis-Gambling-Translation Section (in conjunction with Research Section of DID) set up project to make comparative analysis of the numerous documents apparently authored by the so-called Citizens Commission to Investigate the FBI with writings and oral addresses of primary suspects being obtained by field during course of investigation in this matter. (u)

Our analysis is programmed to include the following:

1. Format, The mechanics of putting the material on paper. General spacing and arrangement of text; spacing between lines, words, paragraphs, before and after punctuation; and any unusual traits associated with format. (u)
2. Typing or writing artifices. Capitalization; strikeovers vs erasures; use of cardinal, ordinal and digital numbers; underlining or capitalization for emphasis, etc. (u)
3. Grammatical and linguistic analysis. Our computer is to be used in this phase of the analysis which includes detailed examination of lengths of words, sentences and paragraphs for exploitable characteristics. The style of writings is examined to detect stereotyped beginnings or endings of sentences; (u)

53 MAY 24 1971

Memorandum to Mr. Conrad
Re: MEDBURG

tendencies to use simple, complex or compound sentences in their various forms; parallel constructions; absolutes; appositives; alliteration, etc. Individual word frequencies are compared and contacts between words to locate possible significant word patterns. The number and type of punctuation are checked and unusual words, phrases and subject matter listed for comparison purposes. (u)

To date, using the computer, we have listed the words used in a specimen in alphabetical order; according to absolute frequency of occurrence; according to word length; and with their contacts. The length of specimens, paragraphs and sentences are being determined and the number and type of punctuation marks listed. These and other statistical operations have been performed on each of the specimens attributed to the Citizens Commission to Investigate the FBI and the results are being stored in the computer for comparison with suspect specimens. (u)

We have received and are processing nine specific requests from Field Offices for comparisons with these specimens. We have assembled writings of twenty-three individuals, listed as suspects, and are examining these writings. Some of these writings are not comparable with the Citizens Commission specimens, for example, forms and materials of such brevity that no characteristics can be determined; others are dissimilar because they contain poor grammar and spelling which are not characteristic of the material in the Citizens Commission specimens. (u)

A total of 217 specimens obtained by Philadelphia in connection with investigation of [redacted] et al, for Destruction of Records at Selective Service Boards in Philadelphia on 2/7/70, was examined and two of the specimens are being given detailed examination. (u)

b6
b7C

You will be kept advised of any significant developments in our continuing analysis of materials in this matter. (u)

*Phone Co. Gives Names to FBI

By MICHAEL RYAN

A series of documents stolen from the FBI office in Media, Pa., last March discloses that the Bureau maintains a list of all telephone subscribers in the Philadelphia area.

A memorandum from Joe D. Jamieson, special agent in charge of the Media office, contains a report that "arrangements have been made through the Bell Telephone Company of Pennsylvania, Security Office, Philadelphia, Pa., for maintaining alphabetical listings in the FBI Philadelphia office."

The listings include the names of all telephone subscribers, whether or not their numbers are published in the telephone directory. The memorandum states that, as of February 26 this year, the FBI had listings for most of the

Philadelphia area, and that listings were being arranged for most of the rest of Pennsylvania.

Monthly Supplements

In addition, monthly supplements would be made available by the phone company to keep the lists up to date.

This set of FBI documents is the sixth released by RESIST, a Cambridge-based antiwar group, since the Media raid eight weeks ago. The documents were mailed anonymously to RESIST early this week by the Citizens' Commission to Investigate the FBI, an underground group which has claimed credit for the Media raid.

A covering letter from the Citizens' Commission provides a breakdown of the stolen documents according to subject matter. Thirty per cent are man-

ARTICLE IN

1 THE HARVARD
CRIMSON
CAMBRIDGE, MASS.

5-12-71

Date: 5/12/71
Edition: Weekly
Author: Michael Ryan
Editor: M David Landau
Title: MEDBURG

Character: Theft of Govern-
ment property
Classification: 52-6636
Submitting Office: Boston
☐ Being Investigated

52-94527-1686

ENCLOSURE

uals and routine forms, 25 per cent concern bank robberies, 20 per cent murder, rape, and interstate theft, 7 per cent draft resistance, 7 per cent AWOL soldiers and 1 per cent organized crime, including gambling.

Political Surveillance

By far the largest number of cases, coming to 40 per cent of the total documents, is of political surveillance and investigation of political activity. Of all the cases, only the two mentioned above concern right-wing groups. Ten concern immigrants, and over 200 deal with liberal and left-wing groups.

For the first time, the group has released documents which detail FBI surveillance of right-wing political organizations.

Reports in the packet detail a Ku Klux Klan meeting held in a rural area of Pennsylvania, listing those present and describing a film of atrocities committed on blacks by Klan members. A memorandum dated October 1970 outlines attempts to gather information on the private lives and credit ratings of members of the militant Jewish Defense League.

Also included in the latest packet is a report on an SDS demonstration in West Philadelphia in April 1968. The report states that "there were no incidents during the course of this demonstration," but lists the names of eight demonstrators and their affiliations with such groups as SDS and the Committee for a Sane Nuclear Policy.

Police Named

The report also lists the names of all the Philadelphia policemen assigned to the demonstration, and the name of a reporter who covered it for WCAU-TV in Philadelphia. In a section headlined

"Signs," it mentions a single placard reading "Science is for helping people, not removing them in Vietnam or West Philadelphia."

The final document in the packet is a form given to subjects of FBI interrogation, outlining their rights to remain silent and to legal counsel. The final paragraph of the form, however, contains a waiver releasing the Bureau from honoring any of the rights listed.

In addition to the FBI documents, the latest packet contains a mimeographed plea for funds from RESIST, stating that the cost of xeroxing and distributing the stolen FBI material is becoming prohibitive. The message asks newspapers to help defray the cost.

Examination requested by: **New York**

Reference: **Airtel 5-12-71**

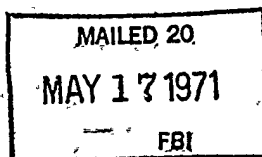

Examination requested: **Document - Cryptanalysis**

Remarks:

From such an examination as could be made, nothing particularly significant was noted during the comparison of the handwriting and hand printing on K4815 with the questioned material in the MEDBURG, EASTCON and GARDBURG - ATTEMPT cases.

The results of the cryptanalysis examination and the return of the submitted evidence will be handled separately.

[redacted]
[redacted] a white female, and a United States Citizen by virtue of birth, attended school at Dubuque Senior High School, where she completed her junior year in 1969. After completing the 11th grade, she dropped out of school and there is no indication of her completing high school. u

After dropping out of school [redacted] spent approximately three months working for the Christian Brothers, St. Louis, Missouri. About April 1970, she moved to the Philadelphia area where she has remained, except for brief periods during the past year. u

On September 2, 1970, [redacted] was arrested by the Bridgeton, N.J. Police Department, and charged with conspiracy to break and enter Selective Service Board 11, Bridgeton, N.J. In this case, [redacted]

[redacted] were also charged in regard to the break-in. On November 17, 1970, true bill indictments were returned by the Federal Grand Jury at Camden, N.J., for violations of Title, United States Code, Section 1361, 1362 and 372. [redacted] is presently out on \$1,000 bond. u

On December 4, 1970, subjects appeared in United States District Court, Camden, N.J., and entered pleas of not guilty. u

On April 15, 1971, Assistant United States Attorney, Southern District of New Jersey, advised [redacted] [redacted] had agreed to plead guilty to the above charges. In addition, he stated that upon sentencing of [redacted] he intended to move to have federal process dismissed against [redacted] u

On Memorial Day, 1970, at an anti-war rally in Philadelphia, Pa., a group called "We the People" publicly claimed responsibility for destruction of draft records on May 19, 1970,

entitled, [REDACTED] " and is marked, "SECRET" -
NO FOREIGN DISSEMINATION (u)

b6
b7C

The newspaper article quotes one paragraph and part of another from page two of serial 20 and freely paraphrases other portions of the document. The article indicates that the documents were received by the newspaper from the Swarthmore "Phoenix," the campus paper of Swarthmore College. u

Division 6 is requested to present this matter to the Justice Department as a possible violation of Title 18, Section 793 (e), United States Code, in view of the classification of the LHM and its prosecutive consideration. u

The two FBI documents were among those received from the Washington Bureau of the Los Angeles Times. u

WFO is requested to determine if the LHM has been quoted paraphrased or used as the basis for any article in Washington area publication to advise the Bureau and Philadelphia. u

Stolen FBI Documents Reveal U. Supplied Details on Administrator

By CLAUDIA COHEN
and MAURICE OBSTFELD

Copyright 1971 The Daily Pennsylvanian

Files stolen last month from the Media regional office of the Federal Bureau of Investigation (FBI) have revealed that the Personnel Office here has supplied the FBI with information concerning a University administrator.

The FBI documents, which were received Tuesday night from the Swarthmore, Phoenix, reveal that Euphemia Thompson, records officer in the Personnel Office, early this year provided the FBI with data on Dr. Herbert Lansing Shore, who recently resigned as director of performing arts at the Annenberg Center.

A page from Shore's dossier, dated Jan. 29, 1971, reads: "Mrs. E. THOMPSON (PROTECT), Personnel Records, University of Pennsylvania, advised that there is an extensive file on HERBERT LANSING SHORE inasmuch as he is now Director of Performing Arts, Annenberg School of Communications, University of Pennsylvania. Records indicate he does have a son, NORMAN JON SHORE, born 4/1/56."

"Inasmuch as subject is identical with the father of NORMAN JON SHORE, his entire record will be reviewed at the University of Pennsylvania and reported."

The FBI, according to the stolen documents, has been investigating Shore's son, aged 15, because of activities in East Germany last summer.

Mrs. Thompson confirmed Tuesday night that, in response to FBI telephone inquiries, she had verified that Shore was employed at the University and that he had a son.

However, she denied telling the bureau's agent that there was an "extensive file" on the administrator in her office.

Following regular personnel procedure, Mrs. Thompson noted, she informed the agent he must come to the office for further information. She said that the FBI representative then probably came in and was given the folder, although she did not remember whether it was she who provided the information when he arrived.

"I do not handle this (FBI requests for data) as a rule," the records officer declared, explaining that her name was on the FBI document.

FBI Surveillance

because she just "happened" to answer the telephone call in question. She added that anyone in the office is authorized to hand out such information.

However, Dr. Fred C. Ford, personnel director, asserted Tuesday night that as records officer, Mrs. Thompson personally handles all FBI requests. Further noting that the office "always" cooperates with the Bureau, Ford remarked, "Because of her position, Mrs. Thompson is probably on record at the FBI as a source of information on the University faculty."

Ford also noted that an agent is not actually supposed to be given the folder; rather, he said, Mrs. Thompson is supposed to hold the folder and answer questions.

Discussing his office's policy on providing information, Ford declared it is standard procedure to provide information to properly identified parties, including firms seeking in-

(Continued on page 3)

STEVE HALL

HERBERT SHORE
Under FBI Surveillance

(Continued from page 1)

formation for credit card applications, government and regular job security clearances. Stressing that there is no confidential data in any personnel records, Ford declared that the statements in the FBI document are a "complete fabrication. I have no idea what their story was about," he noted. "We have no information on his son except that he has a son," Ford said.

Declining to comment on the ethical implications of supplying information for surveillance files, Ford replied only that the data given involves exclusively nonconfidential employment history.

In the event of an FBI inquiry, both Ford and Mrs. Thompson noted, there is no attempt made to determine why the agency wants the information. "How much difference is there if we give the information to another group (such as credit card firms) calling?" Mrs. Thompson asked.

While noting that the incident was "greatly embarrassing for us," Ford declared, "We will continue to provide information to the FBI when asked."

When denying she had indicated to FBI agents the existence of a lengthy file on Shore, Mrs. Thompson had noted that there were in fact "only six papers in Shore's folder." She then said she did not remember the date of the occurrence, and said she had not heard before Tuesday night of her identification on the FBI file. When asked how, if this was the case, she was immediately familiar with the number of pages in the folder, Mrs. Thompson was at first reluctant to answer the question. Then she asserted she had actually just been "guessing at six, since he (Shore) had only been at the University a short time."

The FBI documents relate that Shore's son, Norman, had, in March 1970, contacted an individual named Joachim Kiessling in East Berlin at the international division of the Free German Youth, the youth organization of the East German Communist Party. Norman, the documents continue, mentioned a meeting in East Germany between his father (Shore) and Kiessling, and went on to discuss with Kiessling an

East German summer camp which he had previously attended - one in which he had "learned a great deal about socialism."

In May 1970, the files say, Norman was in contact with another agent of the Free German Youth, Werner Engst. At that time, he informed Engst that he would again be attending the summer camp, the documents say.

The dossier further reveals that a "sensitive source" told the FBI that during June 1970, "an individual by the name of MEGCHELINA SHORE of 97 Palmer Mill Road, Media, Pa., was in contact with the above-mentioned KIESSLING (sic) at the 'Free German Youth' to inform him of Norman's flight arrangements.

The documents go on to say: "Source advised during July 1970 that an individual by the name of H.L. SHORE of 97 Palmer Mill Road, Media, Pa., who presumably is subject's father, contacted subject during July 1970 at the International Pioneer Republic . . . (in) Eberswalde near Altenhof, East Germany, to tell subject of the physical and emotional well-being of 'Mom,' who presumably is the subject's mother. H.L. SHORE mentioned to the subject the war of liberation in Mozambique and that everyone is proud of the material on Mozambique that subject took along and of the use he will make of it."

"Source advised during September 1970 that subject, during the same month, was in contact with both KIESSLING and ENGST, mentioned above, at the FDJ Zentralrat in East Berlin."

The documents received Tuesday by The Daily Pennsylvanian are incomplete, and reveal nothing of Norman Shore's activities since Sept. 1970.

Shore was unavailable for comment Tuesday night.

PH T-1, another government agency which conducts intelligence investigations, advised during March of 1971 that captioned subject, who listed his residence as [REDACTED] was during that same month in contact with an individual by the name of [REDACTED] at the International Division of the "Free German Youth" (youth organization of the East German Communist Party) in East Berlin, Germany. Subject related to [REDACTED] that he was pleased to learn [REDACTED] had had an opportunity to meet [REDACTED] when [REDACTED] visited the G.D.R. (German Democratic Republic). Subject informed him he was pleased to be invited again to the camp. Subject said he had learned a great deal about socialism when he had previously attended the camp and after his next experience at the camp, he would be able to return to the United States with ideas and to inform the children about the camp.

Source said during May of 1970 that subject, during that same month, was in contact with an individual by the name of [REDACTED] at the "Free German Youth". Subject informed [REDACTED] that he accepted the invitation (to attend the camp) and indicated that at the next camp he would grasp the points he could not hold on his prior visit.

Source advised during May of 1970 that subject, during that same month, was in contact with one [REDACTED] at the "Free German Youth", whom he thanked for his assistance in helping the subject to get into the camp.

[redacted]

Source advised during June of 1970 that during the same month an individual by the name of [redacted] of [redacted] was in contact with the above-mentioned [redacted] at the "Free German Youth" to tell him that subject would be arriving on flight L0256 on July 16, 1970, leaving Amsterdam, Holland, and subsequently leaving Berlin, Germany, on August 20, 1970, on Flight 255. She told him that subject was issued passport number [redacted] dated June 22, 1966, which was renewed at Dar-es-Salaam, Tanzania, East Africa, and would be valid for five years, expiring on June 22, 1971. She advised him that subject was born [redacted] in [redacted] [redacted] and his full name as indicated on the passport is [redacted]. She said he is five feet four inches tall, has brown hair and blue eyes. She thanked him for inviting subject to the camp and told him subject was politically much more understanding of the problems facing all of the people throughout the world.

Source advised during July 1970 that an individual by the name of [redacted] of [redacted] who presumably is [redacted] contacted subject during July 1970 at the International Pioneer Republic "Wilhelm Pieck", Eberswalde near Altenhof, East Germany, to tell subject of the physical and emotional well-being of [redacted] who presumably is [redacted]. He mentioned to the subject the war of liberation in Mozambique and that everyone is proud of the material on Mozambique that subject took along and of the use he will make of it.

Source advised during September 1970 that subject, during that same month, was in contact with both [redacted] and [redacted] mentioned above, at the FDJ Zentralrat in East Berlin. Subject thanked them for being able to attend the camp in East Germany and said he hoped to return to study at the camp. In his contact with [redacted] subject said that the pioneer leaders were a great help in the learning process in the camp and that he will try to promote the

Date: May 13, 1971

FBI File No. 52-94527

Re: MEDBURG

Lab. No. D-710513009 LC

Specimens received 5/13/71

Q299 - Large manilla envelope postmarked "BALTIMORE MD-USPO
GWYNN O BR. MAY 6 1971," and hand printed address
"Resist - Rm. 4 763 Massachusetts Ave.
Cambridge, Mass. 02139"

Result of examination:

The hand printing on Q299 was not prepared by the
writers of the questioned and known hand printing in the EASTCON
case.

It was also determined that the hand printing on Q299
was not prepared by the writer of the questioned hand printing
or the writers of the available known hand printing in the
instant case.

It was determined that the meter number stamp on Q299
is "169123." No indented writing of value or watermarks were
noted on Q299.

The submitted evidence will be returned separately.
Photographs are retained.

GENERAL INVESTIGATIVE DIVISION

Attached sets forth information from reliable [redacted]

Source overheard plans [redacted] to have a group confrontation with FBI Office, Philadelphia, 8:00 AM, 5/14/71.

Reason for confrontation is alleged harassment by FBI surveillance of members of these two groups. Some of these members are logical Medburg suspects. Leaflets distributed at meeting criticized FBI activities and urged everyone contacted by FBI to send transcript of incident to Emergency Civil Liberties Committee. care of Attorney [redacted] who is preparing lawsuit to stop FBI harassment.. Source advised a small group of activists may attempt to "trash" (enter office and destroy property) Philadelphia FBI Office evening of 5/13/71.

b6

b7C

Philadelphia taking adequate precautions to insure physical safety of personnel and office space and maintaining liaison with U. S. Attorney, Eastern District of Pennsylvania, regarding possible Federal violations. All offices have been alerted to potential disruptive activities by activist groups and letter being forwarded to the Attorney General today concerning possible disruptive harassment activities by known activists against Selective Service and FBI Offices. Bureau will be kept advised of developments.

Hoover Plans to Shut Small FBI Offices

Some of the Federal Bureau of Investigation's 500 small resident agent offices are going to be closed down in the aftermath of the burglary of the Media, Pa., FBI office.

FBI Director J. Edgar Hoover was described by insiders as furious over the continuing embarrassment caused the bureau by public disclosure of documents stolen at Media on March 9. He sent inspection division agents to check on the security of all FBI offices. Special concentration was placed on the resident agent offices, which range from one to 10 men.

The inspectors are quickly submitting reports on the resident agent offices as well as the security of the 59 larger field offices in metropolitan centers. But no final decision has been made on how many of the small offices will be closed.

The 76-year-old Hoover—who has been under increasing

pressure to retire—was described as being apoplectic over the Media incident.

In his anger, Hoover reportedly told subordinates one day last week he wanted all of the resident agent offices closed immediately, but aides reportedly persuaded him this

was impractical.

Then Hoover reportedly ordered that a 24-hour guard be kept at all resident agencies.

His subordinates persuaded the director that this is not a practical solution because many of the offices have no more than five assigned

agents. Round-the-clock shifts would cut investigating time severely, they argued.

The alternatives are still being studied, but indications are that the smallest resident agent offices are likely to be closed unless the plan is revised.

Sources said the final decision in each case will be based on a combination of manpower available and the security factor of the office location.

Resident agent offices usually are very small and maintained only so that agents do not have to commute long distances to the FBI's larger field offices.

Wherever possible, the resident agent offices are located in federal buildings, often post offices. But in some small towns, such as those near military bases or college towns, they are located in commercial buildings.

Certain assistant directors are trying to cool Hoover down enough to prevent him from shutting so many small offices that hardships would be imposed on field office personnel in large states.

The FBI here had no official comment to make on the report of resident agent office closings.
